Chapter number	Software required (With version)	Free/Proprietary	If proprietary, can code testing be performed using a trial version	If proprietary, then cost of the software	Download links to the software	Hardware specifications	OS required
1-9	Rust, Cargo	Free			https:// rustup.rs	1GB RAM	Windows, MacOS, or Linux

The Rust language and Cargo package manager must be installed to run the examples in this book. They should also be version 1.26 or higher:

1. Install Rust and Cargo using `rustup.rs`:

```
curl https://sh.rustup.rs -sSf | sh
```

2. Confirm that Rust and Cargo have been installed and version is greater than 1.26:

```
$ rustc --version
rustc 1.27.0-nightly (428ea5f6b 2018-05-06)

$ cargo --version
cargo 1.27.0-nightly (af3f1cd29 2018-05-03)
```
